

ADVANCED DIPLOMA IN NURSING LEADERSHIP AND HEALTH CARE MANAGEMENT PROGRAMME(2018 COHORT)

HK College of Nursing & Health Care Management

To enhance the professional development and continuing education of Nursing Professions and the managerial techniques of future Nursing Leaders, the HKCNHCM has specifically designed an **Advanced Diploma in Nursing Leadership and Health Care Management Programme** to equip nurse leaders who can make informed, strategic decisions regarding all aspects of health care management, including effective delivery of high-quality care, survives consolidation, escalating costs, disproportionate access to health care, effective health information technology, and ever-increasing regulation.

Introduction

As nurses move upward in organizations, the decision making, the problem solving, and the project management become increasingly complex and multifunctional. Comprehensive management training is required for the potential nurse leaders in order to equip them with knowledge and skills as well as experience sharing, which required for performing their leadership and management role at work.

Modules

	Global Perspective on Healthcare Management in relation to Nursing Management	
	Organizational Development and Strategic Management	
	Operations Management	
	Human Resources Management
